

## Open PDF's With Reader Plugin on Firefox ESR24:

New to this ESR is a pdf viewer built-in. If you prefer the Adobe Reader PDF plugin, or want to select a different viewer, make the selection here:

Open Firefox>Options>Options

You can select what software you use to view Adobe PDF files in the Applications tab (1). In the content type column, select Portable Document Format (PDF) (2), then in the drop down select the viewer you would like to use (3). Click OK.
